Ron Paul is a principled man who has stood firmly on his oath of office to preserve the Constitution for 20 years in Congress. He has diligently scrutinized every bill using the highest Law of the land and has never voted to raise taxes nor taken money from lobbyist. He has always voted to protect ALL our rights to privacy, to bear arms, to have free speech and religion, and to farm, educate and buy foods and supplements, among other things, as we see fit. Dr. Paul has delivered over 4,000 babies as an OB/GYN and is absolutely pro-life.

Ron Paul is on the Finance Committee and committee on Foreign Affairs and has proven to be a leader in the fight for fiscal and moral responsibility. He defends the Constitution with every vote.

Ron Paul legislates only to increase the power to the people. He has proven to be everything the American people need in a Congressman and now in a President. It should come as no surprise that big money silenced him via the media. But that hasn't stopped Ron Paul or us.

Come know for yourself why we must elect Ron Paul. We have four months until the Republican National Convention. Let our voices continue to be heard over the silence of the media. We are gaining ground. The power is vested in us, the people. It is time.
